# Project 0

James Mann

Who doesn't like donuts? — The Store

I have donuts...virtual ones at least.

The application parts

Orders	Products (orders) Available by Customer and by Location
Locations	Products (inventory) Listed out
Employees	Mangers added via assigned ManagerID relating to their EmployeeID Available by Location
Customers	

Customer

PK	CustomerId
	FirstName
	LastName
	PhoneNumber

Order

PK	OrderId
FK	CustomerId
FK	LocationId
	OrderDate

OrdProducts

PK	OProductId
FK	OrderId
	OProductName
	Quantity

Manager

PK	ManagerId
FK	EmployeeId

Location

PK	LocationId
	Address
	City
	State
	ZipCode
	Hours
	PhoneNumber

InvProducts

PK	IProductId
FK	LocationId
	IProductName
	Quantity

Employee

PK	EmployeeId
FK	LocationId
	FirstName
	LastName

To Be Added

Pick Up Indication (with DateTime)

Automatic Totals of Costs for Orders

Better Order System (smoother)
